Dear All,

PICEU Foundation is a registered charity working in educating doctors and paramedics in echocardiography ,ultrasound , Airway manipulations. We would love to include some more fields depending on the need and faculty.

We have conducted several courses at various locations over last 5 years that are well appreciated by the participants. We have our own TEE/TTE Heartworks simulator which is state of the art facility. Please visit our website [www.piceufoundation.com](http://www.piceufoundation.com) and get more idea of the concept.

No charity can work without people's support and we are committed to fulfill your expectation and even active participation in persuing the goal.

Here by we request you to donate PICEU foundation and avail 80G exemptions on your donation. The amount doesn't matter it is the support that is needed.

Thanking you ,

Dr Vinayak Desurkar  
PICEU foundation.
